

MILLET ROASTER

3HP

- 3 HP
- Single Phase
- LPG Burner
- Capacity 20kilo to 30 kilo per Hour

PELLETIZER

5HP

- Only used for Cattle Feed.
- Capacity 50 kg to 70kg per hour.
- 5HP Electric Power Required.
- 3Phase Power Supply Need .

MINI RICE MILL

3HP

- Capacity 100 kg - 150kg per hour.
- 3HP Electric Power Required.
- Single Phase Power Supply need.

MINI DAL MILL

3HP

- 3HP Electric Power Required.
- Single Phase Power Supply need.
- Green gram & Red gram.
- Capacity 100 kg per hour.
- Simple & Direct Method.

RAGI CLEANER

3HP

- Capacity 150kg per hour.
- 3HP Electric Power Required.
- Single Phase Power Supply need.
- All Kind of Grains can Clean

RAGI POLISHER

3HP

- 3HP Electric Power Required.
- Single Phase Power Supply need.
- Low Maintenance
- Capacity 500 kg per hour.
- Roll Polisher Type Machine
- All Kind of Grains can Polish

CHILLI CUTTER

3HP

- Capacity 30KG per hour
- Blower Model.
- 3HP Electric Power Required.
- Single Phase Power Supply need.

AUTOMATIC COCONUT DEHUSKER

2HP

- 2HP Electric Power Required.
- Single Phase Power Supply need.
- Capacity 400 - 600kg per hour.

ROTARY MACHINES

RAINO MS

5HP

- + 16 kg/hr Productivity for all seeds
- + 20 kg/hr for coconut
- + No need civil works
- + 5 hp electric motor inbuild
- + No need a bed bolts
- + Low noise

RAINO PREMIUM SS

5HP

- + 16 kg/hr Productivity for all seeds
- + 20 kg/hr for coconut
- + No need civil works
- + 5 hp electric motor inbuild
- + No need a bed bolts and Low noise
- + 304 stainless steel oil plate and hopper

COPRA CUTTER

5HP & 3HP

- + Dry coconut(copra) cutting
- + Random size for the purpose of easy oil crushing
- + Foundation free machine
- + Easy replacement spares
- + Phase of electricity - 3 phase
- + Solid blade cutter
- + Mini model - 3 Hp power
- + Heavy model - 5 Hp

PULVERIZER

2HP,3HP & 5HP

- + 2HP & 3HP
- + Single Phase
- + Automatic
- + Dry Rice, Wheel & Grains Flour making
- + 5HP- 3Phase

OIL FILTER

1HP / 2HP

- + SIZE - 14X14
- 18X18
- 24X24

- + Piston type pump
- + Heavy duty model with tray & cloth
- + 1HP / 2Hp power

OIL CAKE POWDER

5HP

- + Oil Cake and dry seeds
- + Powder in granular
- + Foundation free machine
- + Simple assembly
- + Easy replacement spares
- + 5hp electric power
- + 3phase
- + Machine side wall harden steel
- + It will powder 250kg per hour

TYCOON MS

7.5HP

- + Heavy duty gearbox run the rotary
- + Gears are made by harden steel
- + No need skilled fitters
- + Low noise
- + No need civil works
- + 7.5 electric motor
- + Immediate running
- + Easy to assembling
- + No need a bed bolts
- + 24 kg/hr productivity for all seeds
- + 30 kg/hr for coconut

TYCOON PREMIUM SS

7.5HP

- + Heavy duty gearbox run the rotary
- + Gears are made by harden steel
- + No need skilled fitters
- + Low noise
- + No need civil works
- + 7.5 electric motor
- + Immediate running
- + Easy to assembling
- + No need a bed bolts
- + 24 kg/hr productivity for all seeds
- + 30 kg/hr for coconut
- + 304 stainless steel Hopper and oil plate

FLOUR MILL

5HP / 7.5HP

- + 60kg - 80kg per Hour
- + 5HP & 7.5HP
- + Heavy duty
- + Foundation free model
- + InBuild Motors
- + Chilli, Turmeric & Masala Flour mill

FLOUR MILL

7.5HP

- + 60kg - 80kg per Hour
- + 7.5HP
- + Heavy duty
- + Foundation free model
- + InBuild Motors
- + Chilli, Turmeric & Masala Flour mill

MILLET DEHUSKING & POLISHER

3HP & 5HP

- + 3HP/5HP
- + Single Phase
- + With Motor
- + Capacity 150kilo to 250 kilo per Hour

MILLET THRESHER

3HP

- + All Kind of Millots can Separate.
- + 3 HP
- + Single Phase
- + LPG Burner
- + Capacity 150kg per Hour

MAJOR PLUS MS

10HP

- Heavy duty gear box run the rotary
- Gears are made by harden steel
- No need civil works
- 10 hp electric power required
- Immediate running
- Easy to assembling
- No need a bed bolt
- Low electricity
- 45 kg/hr productivity for all seeds
- 54 kg/hr for coconut

MAJOR PLUS PREMIUM SS

10HP

- Heavy duty gear box run the rotary
- Gears are made by harden steel
- No need civil works
- 10 hp electric power required
- Immediate running
- 45 kg/hr productivity for all seeds
- 54 kg/hr for coconut
- Easy to assembling
- No need a bed bolt
- Low electricity
- 304 stainless steel hopper & oil plates

WOODEN MACHINES

WOOD CHAMPION MS

3HP

- Many kind of edible oil can extract.
- Foundation free model
- No need civil works
- Very low sound
- Crushing parts are in traditional special "VAGAI" wood
- Self fitting machine
- Women's friendly machine
- 20 kg/hr productivity for all seeds
- 24 kg/hr coconut
- 3 Hp electric motor power

WOOD CHAMPION PREMIUM SS

3HP

- Many kind of edible oil can extract.
- Foundation free model
- No need civil works
- Very low sound
- Crushing parts are in traditional special "VAGAI" wood
- Self fitting machine
- Women's friendly machine
- 20 kg/hr productivity for all seeds
- 24 kg/hr coconut
- 304 stainless steel hopper & oil plates
- Wood painted 3HP electric motor power

WOOD PRINCE

5HP

- 30 kg productivity per hour
- 5 Hp Electric power required
- Foundation free model
- Very low sound
- Crushing parts are made by Vagai Wood
- Self-fitting model
- Hopper and oil plate made by PREMIUM SS

HYBRID MACHINE

3HP

- 3 HP
- Single Phase With Motor
- Capacity 24kg Seeds, 30kg Coconuts
- Very low sound
- Hopper and oil plate made by PREMIUM SS
- Foundation free model

GAINT MS

12.5HP

- Heavy duty gearbox run the rotary
- Gears are made by harden steel
- No need skilled fitters
- No need a bed bolt
- Mass production machine
- Low noise
- 12.5 hp electric motor
- 60 kg/hr productivity for all seeds
- 75 kg/hr for coconut

GAINT PREMIUM SS

12.5HP

- Heavy duty gearbox run the rotary
- Gears are made by harden steel
- No need skilled fitters
- No need a bed bolt
- Mass production machine
- Low noise
- 12.5 hp electric motor
- 60 kg/hr productivity for all seeds
- 75 kg/hr for coconut
- 304 stainless steel hopper and oil plates

WOOD SUPREME

5HP

- 50 kg per hour
- 5 Hp Electric power required
- Foundation free model
- Very low sound
- Crushing parts are made by Vagai Wood
- Self-fitting model
- Hopper and oil plate made by PREMIUM SS

WOOD LEADER

7.5HP

- 60 kg per hour
- 7.5 Hp Electric power required
- Foundation free model
- Very low sound
- Crushing parts are made by Vagai Wood
- Self-fitting model
- Hopper and oil plate made by PREMIUM SS

BASIC

10HP

- The Traditional model machine
- Foundation model
- Heavy duty model
- Ground mounting system
- 10 hp electric power required
- Simple mechanism

CHASE

10HP

- The Traditional machine fitted into a steel chase
- No need skilled Fitters
- No need civil works
- 10 hp electric power required
- No need a bed bolt
- Simple mechanism

E-SERIES WOOD

3HP

- + 3HP
- + 3 Phase
- + With Motor
- + Crushing Time 30min/ batch
- + Oil Plate & Hopper Type SS
- + 304 stainless steel

E-SERIES ROTARY

7.5HP & 10HP

- + 7.5 HP & 10HP
- + 3 Phase
- + With & Without Motor
- + Crushing Time 30min/ batch
- + Oil Plate & Hopper Type SS
- + 304 stainless steel

K 10 MS

10HP

- + Heavy duty gearbox run the rotary
- + Gears are made by harden steel
- + No need skilled fitters
- + No need civil works
- + 10 hp electric motor
- + Immediate running
- + Easy to assembling
- + No need a bed bolt
- + Low electricity consumption
- + 24 kg/hr Productivity for all seeds
- + 30 kg/hr for coconut

K 10 PREMIUM SS

10HP

- + Heavy duty gearbox run the rotary
- + Gears are made by harden steel
- + No need skilled fitters
- + No need civil works
- + 10 hp electric motor
- + Immediate running
- + Easy to assembling
- + 304 stainless steel Hopper & oil plate
- + No need a bed bolt
- + Low electricity consumption
- + 24 kg/hr productivity for all seeds
- + 30 kg/hr for coconut

DECORTICATOR

3HP

- + 3 HP
- + 3 Phase
- + With Motor
- + 2 Size Mandatory Screener
- + Capacity 200kg to 400kg depends on seeds.

MINI DECORTICATOR

1.5HP

- +100 to 150 kg
- +1.5HP
- +Single Phase
- +Heavy duty
- +Foundation free model
- +Removes the Groundnut Shell

4 BOLT OIL EXPELLER

5HP

- + Only for coconut extraction.
- + No need civil works
- + Single gear model
- + 5HP Electric power required
- + 3phase power supply need
- + Machine chass - steel
- + Machine body - steel
- + Motor to drive connect - v belt & pulley
- + Coconut 25kg per hour

6 BOLT OIL EXPELLER

7.5HP

- + Only for Groundnut & Coconut Extraction.
- + No Need Civil Works
- + Additional steam is required while extracting groundnut oil
- + Capacity 75kg per Hour
- + 7.5 HP Electric Power Required
- + 3Phase Power Supply need
- + Motor to drive Connect - V belt & Pulley

MAJOR MS

10HP

- + India's First Gear Box model motor
- + Heavy duty gear box run the rotary
- + Gears are made by harden steel
- + No need civil works
- + 10 hp electric power required
- + Immediate running
- + Easy to assembling
- + No need a bed bolt
- + Low electricity consumption
- + 36 kg/hr productivity for all seeds
- + 45 kg/hr for coconut

MAJOR PREMIUM SS

10HP

- + India's First Gear Box model motor
- + Heavy duty gear box run the rotary
- + Gears are made by harden steel
- + No need civil works
- + 10 hp electric power required
- + 36 kg/hr productivity for all seeds
- + 45 kg/hr for coconut
- + 304 stainless steel hopper & oil plates
- + Immediate running
- + Easy to assembling
- + No need a bed bolt
- + Low electricity consumption

AUTOMATIC BOTTLE FILLING

- + Digital Touch Screen
- + Triple Head Filling
- + Individual Input & Output
- + 304 Stainless steel Body
- + Customize Oil Level
- + Fully Automatic Control
- + You can fill 100ml - 5 Lit

MANUAL BOTTLE FILLING

- + Electric power free machine
- + Stainless steel body
- + 200ml, 500ml and 1Lit and 2Lit bottles filling capacity
- + Manual pedal operation
- + Filling level can easily adjusted
- + External level tube fixed
- + Foundation free machine
- + Easy to transit.
- + Rust free machine
- + 304 stainless steel body
- + Oil level will be immesurable
